(Formerly known as Highland Priority Care)

**Our Name Has Changed.
Our Mission Hasn't.**

St. Joseph's PrimeCare (formerly known as Highland Priority Care) is your first choice for high-quality health care for minor aches and pains, sprains and strains. Open every day of the year, we offer both daytime and evening hours to meet your needs. No appointment is required, and walk-in patients are welcome.

Also, St. Joseph's PrimeCare is fully operated by HSHS St. Joseph's Hospital in Highland, a benefit you can see in expedited wait times and office visits.

We are continuing what Highland Priority Care started by:

- Being available before work, after school or during the weekend – when you need us most.
- Utilizing state-of-the-art technology available in the new St. Joseph's Hospital (including fully licensed X-ray and laboratory facilities staffed by experienced technicians).
- Having the ability to furnish your primary health care provider with access to your visit's information.
- Providing quality treatment for minor illnesses and injuries that require urgent care.
- Decreasing the time spent from arrival to discharge.
- Improving the patient experience through a commitment to keeping visits less than 60 minutes!

We've also partnered with Infinity/MEDS, one of the Midwest's premier providers of:

- Emergency department and walk-in clinic physicians.
- Advanced practice clinicians.
- First-class medical professionals who provide the care and attention you deserve.

All patients who visit St. Joseph's PrimeCare have access to our experienced physicians and highly trained clinical staff. Our entire care team – including physicians, nurses, lab and X-ray techs and clerical staff – are committed to providing an outstanding patient experience for you and your family. Best of all, you get treated by people you trust at St. Joseph's Hospital.

Walk-in Care

When you have a minor injury or illness that needs immediate attention, St. Joseph's PrimeCare is the answer regardless of your age. Our friendly physicians and staff will care for you when you come in for checkups and other scheduled appointments. In general, walk-in patients spend about 60 minutes at PrimeCare from the time they walk in to the time they leave. St. Joseph's PrimeCare automatically sends all information and test results for walk-in patients to their primary care physicians unless otherwise instructed by the patient.

Primary Care

If you don't currently have a primary care physician or if you need more scheduling flexibility for your primary care provider, St. Joseph's PrimeCare is the solution.

On-Site Lab & X-ray Facilities

St. Joseph's PrimeCare utilizes the new Medical Imaging and Lab at SJH – fully licensed X-ray and laboratory facilities staffed by experienced lab and X-ray techs. In general, that means you can get your test results during your visit. Then, if needed, the doctor will write prescriptions, make referrals or take other steps for follow-up care. It's quick and easy.

Convenient Hours

7 days a week, 7 a.m. to 7 p.m.
(Holiday Hours: 10 a.m. to 4 p.m.)
